

INVESTMENT OBJECTIVE

The Barak Impact Fund has a long-term performance target of between 7% to 9% per annum. The Fund is focused on investing in trade finance related assets that are deemed to have a positive social impact and have at least 100% collateral cover for each deal without taking direct commodity price exposure. Its objective is also to ensure a broad mix of countries, counterparties and underlying commodity collateral types as well as to manage collateral and other surety to minimise loss in the event of any defaults.
